Dear Michelle and Damien:

Could we have a wrap-up discussion on this project through Teams at your convenience?

Thank you,
Nadine

Hi Nadine,

Following our conversation on January 30th regarding the project at 21 West Auburn Street in Manchester, NH with CGP coverage, we reached out to the permittee (attached). We received a response from the consultant (also attached).

Please let us know if you have any questions.

Best,
Michelle

Good morning, Nadine –

We have met internally to discuss options. We'd like to have a call with you to go over the facts to further our understanding as we evaluate options.

Please let me know if you're available to touch base sometime next week. Thank you.

Damien

Dear Michelle and Damien:

I am writing to inform the EPA that the New Hampshire Division of Historical Resources (DHR) has not received a response from the applicant to our November 29, 2022 letter regarding the above-referenced project. The DHR continues to assert that there was an Adverse Effect as a result of the undertaking and that meaningful mitigation is required to resolve these effects.

The DHR can no longer consult when the applicant continues to ignore our requests under Section 106 of the National Historic Preservation Act. As Lead Federal Agency for this undertaking, the DHR requests that the EPA work with the applicant to resolve adverse effects per 36 CFR 800.5.

I will be contacting the appropriate liaison at the Advisory Council on Historic Preservation to provide them with an overview of our concerns.

Please advise if there is any additional information you may need from the DHR at this time.

Sincerely,

Nadine Miller
